

ASHENDRAKUMAR PAL

Ahmedabad, Gujarat, India | +91-776 886 5045 | ashendrakumarpal@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of hands-on experience developing scalable, high-performance web applications using Angular and React. Proven expertise in building responsive, accessible user interfaces aligned with modern design principles. Strong background in Angular framework, component-based architecture, state management (NgRx/Redux), and real-time applications using WebSockets. Demonstrated ability to optimize application performance, improve user experience, and collaborate effectively with cross-functional teams. Currently developing AI assistance applications, monitoring tools, and e-commerce solutions at iFour Technolab.

CORE COMPETENCIES

Frontend Development: Angular (2+), React.js, Next.js, TypeScript, HTML5, CSS3, JavaScript, Responsive Design, Component-based Architecture

UI/UX Implementation: Figma to responsive UI conversion, Angular Material, Tailwind CSS, Bootstrap

Performance Optimization: Lazy loading, code splitting, scalable architecture, performance profiling

Backend Development: Node.js, RESTful API development, server-side logic

API Integration: RESTful APIs, asynchronous operations, WebSocket integration

Testing & Quality: Karma/Jasmine, code quality assurance, SonarQube

Development Tools: JIRA, Monday board, Azure, AWS, ESLint

Methodologies: Agile/Scrum, analytical thinking

PROFESSIONAL EXPERIENCE

Software Engineer

iFour Technolab Pvt. Ltd. | Ahmedabad | Mar 2025 – Present

Projects: Bridge App, AI Buddy, B4Tax, MS Office Data Connectors, Toyolla E-Commerce

- Developed multi-platform Microsoft Office Add-ins (Excel, Word, PowerPoint) with scalable modular architecture, improving enterprise productivity for thousands of users.
- Built full-featured e-commerce application (Toyolla) including authentication, shopping cart, payment integration, and order management using modern Angular patterns.
- Created data connector add-in to integrate and visualize QuickBase data directly in Excel, enabling seamless data visualization and analytics.
- Designed and implemented PO Management system with role-based workflows (Admin, Buyer, Supplier), leveraging component-based Angular architecture.
- Developed backend services for B4Tax, a UK-based tax calculation application, using Node.js — handling complex tax logic, RESTful API development, and seamless integration with the React frontend.
- Optimized frontend performance through lazy loading and code splitting, reducing initial load time by 35%.
- Worked on scalable frontend solutions using Angular, React, TypeScript, and RESTful APIs.

Angular Developer

Swan Softweb Solutions | Ahmedabad | Nov 2023 – Mar 2025

Projects: LUBI CRM (Pumps), Source Correct, Natural Flooring, US Safety, FAM Pay

- Developed scalable CRM application using Angular, implementing core modules for authentication, real-time chat, and notifications using WebSocket.
- Implemented real-time chat functionality, improving communication efficiency by 40% through optimized event handling and state management.
- Designed application workflows and user flows from Business Requirements Documents (BRD) using Balsamiq, reducing development time by 25%.
- Integrated REST APIs and third-party services for seamless data flow and enhanced system interoperability.

- Converted Figma designs into responsive UI using Angular Material and Tailwind CSS, ensuring pixel-perfect implementations.
- Designed PO & Shipment module with WebSocket integration and comprehensive state management (NgRx), improving user experience and data accuracy.

Jr. Trainee Engineer

Sapphire Software Solutions | Ahmedabad | Jul 2022 – Nov 2023

Projects: Vidyalaya, Auditor Pass

- Migrated legacy EdTech application to Angular, significantly improving performance and maintainability of codebase.
- Developed Audit Management module from scratch for tracking system activities, ensuring data integrity and compliance.
- Served as sole Angular developer, collaborating effectively with .NET backend team for seamless API integration and problem resolution.
- Enhanced system reliability and reduced errors through structured audit workflows and comprehensive testing.

EDUCATION

Bachelor of Engineering

Priyadarshini Bhagwati College of Engineering, RTMNU | 2015 – 2019 | CGPA: 8.91/10

CERTIFICATIONS & ACHIEVEMENTS

- React.js Certification
- MS Copilot Add-ins Development
- PowerBI Data Connector Development
- Next.js App Router Certification
- MS Power BI Visuals Development
- AutoCAD 2-D Designing

LANGUAGES

English: Fluent | Hindi: Fluent | Marathi: Intermediate | Gujarati: Beginner

PERSONAL DETAILS

Name	: Ashendrakumar Pal
Date of Birth	: 24 December 1998
Gender	: Male
Current Address	: Ahmedabad, Gujarat, India
Permanent Address	: Nagpur, Maharashtra, India
